"I feel fortunate to have found your program. It gave my son a fresh perspective on community, respect for the environment, mindfulness, gratitude and the role of feelings in our lives. Sees the Day was big step up from the other summer activities we've tried in the past".
Christina Torok

"You should get an award for creating this program!"
Laura Mason Ph.D

PHILOSOPHY & GOALS

Sees the Day is an intimate, value based learning program for children ages 6-11 years old. Sees the Day is committed to instilling in children a natural respect and reverence for each other and for all life on earth. Building connections, individual character, and personal awareness through theme based activities, excursions, and ethical dialogues will be the primary focus of each weekly session. Planned excursions include a variety of natural settings, local parks and educational points of interest in the East Bay. Mystery guests, storytelling, nature awareness, earthworks, light hiking, swimming, beading, community service, thankful circles, self esteem games, love, laughter, and good old innocent fun will round out what will be a unique and dynamic experience for all!
